ezlo plus

Superior home control, sleek design & cutting-edge technology.

Powerful enough to be stored in a rack room, but elegant enough to be placed in a living room, the Ezlo Plus leverages the new Ezlo platform for an improved user experience and faster, more efficient, highly customized smart home control.

The Ezlo Plus is designed with simplicity in mind. It enables control of Z-Wave and Zigbee devices, as well as voice control of over 27,000 Wi-Fi devices paired to your Amazon Alexa or Google Assistant through the Ezlo VOI platform, making it the only home controller you'll ever need.

ezlo innovation

Key Features

Enables control of latest Z-Wave and Zigbee devices including lights, thermostats, door locks, sensors, and more, from multiple manufacturers

Control over 27,000 Wi-Fi devices associated with Amazon Alexa or Google Assistant using Ezlo VOI™

Features Z-Wave Smart Start technology learning mode for faster pairing of devices and S2 framework for enhanced security

Create personalized scenes—including grouped triggers and actions—so home is always the way you like it

Local control offers ultra-fast responsiveness and increased privacy by keeping your system off the cloud when you're at home

New EzloCast feature lets you control groups of devices—like all your first floor lights—simultaneously

Get remote access and system notifications sent to your iOS or Android phone through the Vera App

Supports VistaCam indoor, outdoor, and doorbell cameras for greater peace of mind

Open API lets developers create and customize new experiences

Leverages all-new Ezlo platform and application for improved user experience
