Intelligent Meetings

Make every meeting an in-person meeting.

Elevate your meeting space with effortless wireless presentation, vivid 4K video, and crystal clear audio.

From huddle spaces to large conference rooms, *RTI Intelligent Meetings* enables the audio, video, and collaboration needed in today's hybrid work environment.

The 4K Intelligent Video Bar and Intelligent Meetings ecosystem enable you to host more efficient, engaging, and productive meetings — elevating the quality of interactions and outcomes. Intelligent Meetings is compatible with your preferred video conferencing platform, including:

Intuitive Meeting Room Experience

· Clear instructions for all users
· Customizable background
· Multiple connection types:
    Media Xchange™, AirPlay©, Miracast, PC
· Wi-Fi connectivity information for guests

ZOOM   Microsoft Teams   webex by CISCO   RingCentral

Intelligent Video Bar

The UC-IVB-50 is the foundation of RTI Intelligent Meetings.

Wide angle 4K ePTZ camera with 5x digital zoom and 120° field of view ensures everyone is seen in striking 4K clarity.

Artificial Intelligence (AI) for Auto Framing, Presenter Tracking, and Speaker Tracking engage remote teams as if they are in the room.

Hear every word with perfect clarity. The stereo full range speakers with bass enhancement are complemented by the beam-forming AI microphone arrays with AEC[1], ANS[2], and AGC[3] for an exceptional audio experience every time.

Rear panel inputs and outputs enable easy connection to monitors, devices, and control systems.

Scale and customize your installation with the Expansion Microphone and Media Xchange™ Transmitter.

The *RTI Intelligent Meetings* ecosystem scales to meet all collaboration and presentation needs.

- Start meetings on time, every time.
- Share wirelessly from any device.

Large Conference Room

With the wide angle 4K camera on the Intelligent Video Bar and support for up to 3 Expansion Microphones, *RTI Intelligent Meetings* easily scales to large conference rooms. The built-in AI with auto framing, plus presenter and speaker tracking creates a natural flow. Sharing content is easy with the wireless Media Xchange™ Transmitters or through AirPlay or Miracast. Expansion Micrphones will make sure all voices are heard, even on the largest tables. Show room availability and add room control with the KX4 Touchpanel plus Processor at the conference room door, while the RTI IST-10 Touchpanel handles at-the-table control.

Small Conference Room

Take full control of your small conference room by adding an RTI XP-3 Processor behind the TV or in the cabinet, with tabletop control provided by the IST-10. Adding an Expansion Microphone to the table will make sure all voices are heard, while the Media Xchange™ Transmitter enables easy plug-and-present sharing.

Huddle Space

Huddle Spaces demand fast response for impromptu meetings. The Intelligent Video Bar paired with the Media Xchange™ Transmitter enables immediate collaboration and content sharing from any PC, while mobile content can be shared via AirPlay© and Miracast. All of this without the need for a control system.
