RK2 In-Wall Controller

The RK2 is a cost effective touchpanel designed for flush-mount installations in walls or cabinets. It provides a self-contained control system for controlling audio/video components, lights, or other electronic systems in the home. In addition to the seven programmable keypad buttons, the 2.4" high-contrast LCD on the RK2 displays custom text and graphics, providing the flexibility to customize it for each installation. In any economical situation, from simple to complex, the RK2 provides the perfect level of control.

Description

With a 2.4" touchscreen and the perfect selection of keypad buttons, the RK2 provides elegant and intuitive control of a home's entertainment and environmental systems. Two faceplate and seven bezel color options, make installation into any decor seamless. The RK2 is capable of being used standalone to deliver IR up 1000 feet or when used with the available RTI accessory devices the ability to use infrared routing, relay control, power sensing, and RS-232 communications for advanced control become available.
