

What if your home anticipated your needs? And turned up the heat before you were cold... turned on the lights before you came home... warmed up the hot tub before you asked... turned off the sprinklers when rain was in the forecast.

It's easy. With RTI.

Smart Home Control To Fit Your Lifestyle

RTI
It's Under Control®

Welcome Home

Home is where memories are made, where families grow, where friends are celebrated, where you live, work, and play. What if your home could do more?

With RTI smart home control, it can.

Comfort and convenience

Imagine controlling your lighting, shades, and thermostat with a single command, or automated to fit your schedule.

RTI lets you set the mood with scenes that turn the ordinary into extraordinary, personalized for reading, cooking, watching a movie, or relaxing on the patio.

Peace of mind

Always come home to a well-lit house. Lock up with a single command at night.

RTI talks to your security system, so you always have peace of mind knowing that you, your loved ones, and your valuables are protected.

Music and entertainment

Imagine music playing in any room, or in every room. RTI Music makes it easy, with your favorite streaming services fully integrated into your smart home system.

Time for the big game? RTI makes controlling your video entertainment just as simple.

Step outside

Whether entertaining on the patio, dining on the deck, unwinding by the pool, or tending the garden, your RTI system will ensure your outside space is ready for action, responsive, and personalized like the rest of your home.

Energy efficient

Conserve energy whether you are at home or away.

Your RTI system intelligently communicates with your thermostat, lighting, and other electronics to ensure you are optimizing energy use.

Use your voice

Control your smart home with hands-free convenience.

RTI integrates with Amazon Alexa to make voice control of your connected home intuitive and easy.

Customized for you

No two households are alike. That's why your RTI system is completely customizable by your RTI Control Pro to fit your lifestyle.

From fully personalized control to the intuitive automation happening behind the scenes, your RTI system elevates all aspects of your home.

Always connected

From across town or around the world, stay connected with RTI smart home control.

Check security cameras, see who is at the door, turn on the lights, turn off the sprinklers, let the delivery person into the garage, and lock up once they've left.
